

Cyberbullying

By: The Amendment
(Lael, Helen, Maddie, Revan, Isaiah, Justin)

The Issue

- Effects of cyberbullying are dangerous and even fatal.
- Half of U.S. teens experienced cyberbullying behavior
- Older teen girls are more susceptible
- Students are 2x more likely to attempt suicide if they have been cyberbullied

Take Action

- We will create a safer space by addressing cyberbullying.
- We will hold school assemblies to explain how it negatively affects individuals.
- We will talk to school counselors to establish support groups for those affected.

What We Learned

- Cyberbullying is preventable with the proper precautions.
- Supporting those affected by cyberbullying is just as important as preventing it.
- Cyberbullying is often overlooked because people think that it won't matter if you just turn off the device.

About us

- We are a group that will help end cyberbullying.
- Whether you're looking to learn more, seek support, or get involved in advocacy, we welcome your participation.
- Together, we can make a difference and ensure that everyone has the opportunity to thrive in an environment free from cyberbullying.

**Thank you for
your time.**
